

# FF/180/MD/PF/BL/SF/CIR

## SUITABLE FOR CEILINGS & WALLS

# FLIPFIX™

### Description

Metal Faced Circular Access Panel, Picture Frame with an Allen Key door lock and supplied with the Patented FlipFix Fitting Device. It's available up to 3 Hour Fire Rated, This panels Fire Rating is Certified up to 300x300 in a Ceiling and Wall application. Anything above these sizes will be manufactured to the same construction as tested. For inspection purposes only.

### Construction

The FF/180/MD/PF/BL/SF/CIR is manufactured from 0.9mm and 1.2mm thick Zintec steel. The panel door leaf is fully removable and is powder coated RAL 9010 30% Gloss. Other colours are available on request.

### Dimensions (MM)

The panels are available in 200 and 300mm diameter. Other sizes available upon request.

### Fitting

To fit the panel cut the plasterboard to the structural opening required. Opening required needs to be 5mm larger than panel size, EG 600mm diameter requires 605mm diameter hole size. Remove door leaf from the frame, place the frame in the structural opening ensuring the frame is pushed up against the plasterboard. Using a cordless drill tighten the FlipFix device via the fixing screw located behind the door leaf to clamp on the back of the plasterboard.
